Company is a 2002 Hindi action crime thriller film starring Mohanlal, Manisha Koirala, Vivek Oberoi, Ajay Devgan and Antara Mali. The film revolves aroundÂ .Rhythmic burst of precursor cells in spinal cord of lamprey *Lampetra fluviatilis*: effects of serotonin and cycloheximide. The pattern of retinal ganglion cell (RGC) regeneration in larval lampreys is characterized by a highly regular, rhythmic burst of a wave of precursor cells in the spinal cord that forms in a stereotypic fashion from the stump of the axotomized eye and moves caudally in large waves. The spatial and temporal patterns of the precursor cells in the spinal cord were studied by autoradiographic analysis of the radioactivity of the RGCs that had accumulated 5-bromo-2'-deoxyuridine (BrdU) in larvae that had been injected with BrdU. The nuclei of the precursor cells in the spinal cord passed through different states of activity over a period of time of about 40-60 hr, being relatively quiescent at the beginning of the regeneration period, gradually increasing their mitotic index, i.e. the number of mitotic figures per nucleus, until they reached a steady state with a relatively high mitotic index. The bursts of precursor cell activity observed were seen to follow a rhythmic pattern in the following order: 3 cell pulses, 1.3-1.8 cells, 1-1.7 cells, 1.7-1.4 cells, 3-
